

This course will be administered to those seeking to gain entry into the Patrol Rifle Instructor course # 2014 and for those instructors attending the Patrol Rifle Portion of Firearms Instructor Update or Recertification.

Instructions

1. This course must be completed using an agency issued and or approved patrol rifle and sights/optics.
2. The target to be used is the BLEA Tactical Target. Participants will be given two opportunities to achieve a passing score.
3. A passing score shall be 90% (450pts) of the 500pts possible. A hit outside the scoring zones but on the silhouette will result in zero points but not constitute a miss. A hit off of the silhouette will constitute a miss and assess a ten point penalty. The head shots called for in Sequence #6 below must be within the inner shaded portion of the head. All other hits breaking a scoring line will be awarded the higher point value.
4. Malfunctions are not an excuse or alibi to stop the qualification procedure. If a malfunction occurs during sequence 1-4, the shooter must clear the malfunction and continue. If the shooter experiences a malfunction during sequence 5 & 6 the shooter may not have sufficient time to correctly clear the malfunction and fire the required number of rounds, therefore may re-shoot that sequence. For the purpose of this examination a malfunction is an unforeseen mechanical breakage or defect related to the weapon or ammunition and was not shooter induced such as failure to properly seat magazine, load, or disengage the safety.

LAST NAME		FIRST	MI	AGENCY			
Agency Address		Phone		Email			
Date and Location of Test				Instructor Scoring Target			
Rifle Make & Model	Caliber	Sights used – Circle IRONS or OPTICS		Make/Model of Optics
