[CLICK HERE TO LEARN MORE](#)

The 3-day Cellular Technology, Records, and Analysis is open to any sworn law enforcement officer, crime analyst, or district attorney. This intermediate, or fast-paced beginner course, was designed to provide the attendee with a basic understanding of how cellular telephones operate, the records they generate, how to obtain them, and how to leverage them in an investigation. The course mixes lecture content with practical exercises to provide the student with plenty of hands-on time analyzing records using CellHawk or their preferred mapping solution.

Course Topics:

- Cellular technology and evolution
- Target development and resources
- Legal process and considerations
- Provider records
- Mapping (CellHawk)
- Records analysis (CellHawk)
- Specialized location data (RTT, PCMD, TDOA)
- Presenting records and basic testimony

Required Materials:

- Laptop w/ WiFi capability
- Microsoft Excel
- External mouse (highly recommended)

Tuition information:

\$675.00 per person
