

Tactical Medicine for Law Enforcement

Western Regional Counterdrug Training Center

1 DAY—8 Hour Class	FREE TRAINING	2 DAY—16 Hour Class
January 26th January 27th February 23rd February 24th	LOCATION: 6011 N. Chase Road Newman Lake, WA 99025	January 28th-29th February 25th-26th

This course is designed to teach law enforcement officers and other first responders how to treat and manage trauma patients in a civilian tactical environment. Utilizing a mix of classroom presentation and hands-on skills practice, attendees will learn how to provide life-sustaining treatments in threatening environments. Upon course completion, students will be able to identify and treat the leading causes of preventable death in a multi-phase tactical environment.

WRCTC delivers a comprehensive counterdrug curriculum that tailors military expertise resident within the Washington National Guard to counterdrug requirements not readily available to law enforcement agencies. As a training institution, WRCTC strives to provide departments and agencies a common framework to disrupt and dismantle transnational criminal organizations, interdict the flow of illegal drugs, combat trafficking, and to reduce the influence of drug-related activities in our communities and around the world.
