## WASHINGTON STATE CRIMINAL JUSTICE TRAINING COMMISSION

**TO:** WSCJTC Commissioners  
**FROM:** Kimberly Bliss, Assistant Director/Certification  
**SUBJECT:** Quarterly Certification Report  
**DATE:** February 28, 2024

### **Staffing**

Chief Investigator Dusty Pierpoint retired in January, and his position was filled by an internal candidate, EJ Swainson.

Filling open investigator positions continues to be a challenge. Currently, we have three open investigator positions. We recently made offers to two candidates who both declined after their current employers offered them additional salary and/or benefits to remain in their current positions.

In addition to recruiting for the open investigator positions, we are creating a new intake specialist position to manage cases in intake review, review agency investigations, and make recommendations to the Division Manager and Assistant Director on administrative closure vs. investigation. We expect this position to help with the backlog of cases in intake and intake review.

### **Certification Data**

Attached are the Certification data tables showing the totals for 2023 and the last three months (December 2023 – February 2024). We have also included the glossary for your convenience.

We would like to highlight the addition of a category in our case status table: Open Pending Expiration. This reflects cases that remain open but are not being actively investigated due to circumstances beyond our control. Cases in this category involve officers who are not currently employed. These cases should not be administratively closed or declined for charges. Instead, they will remain open until the officer's certification expires. Upon expiration, the commission staff maintains a flag/alert on the officer's profile to indicate that the officer expired with a misconduct investigation pending. We also report that status to the National Decertification Index.

### **Surrenders**

In late November 2023, we developed a Voluntary Surrender of Officer Certification form. A copy is attached for reference. This form is available on the Commission's website and, since its creation, has been proactively sent to officers under investigation. In the two and a half years before the form was implemented, three officers voluntarily surrendered their certification. In the past four months, nine officers have surrendered using the form. Officers who surrender are

generally revoked without a hearing, saving significant resources for the WSCJTC, the Attorney General's Office, and the Office of Administrative Hearings.

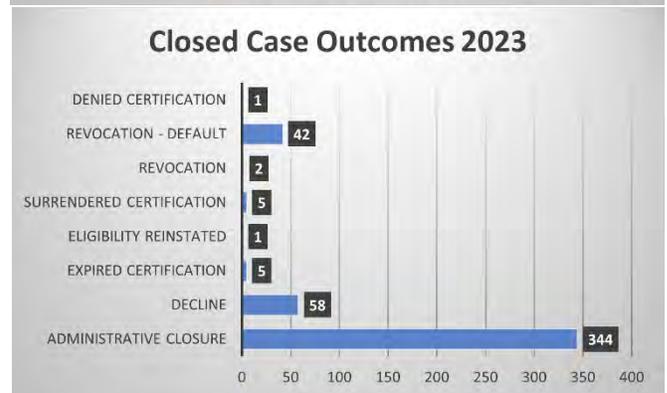

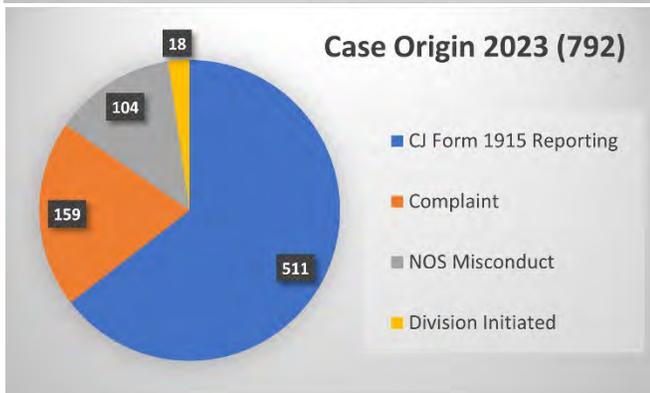

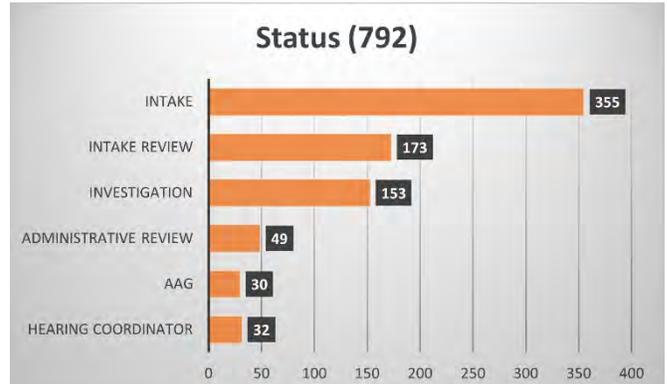

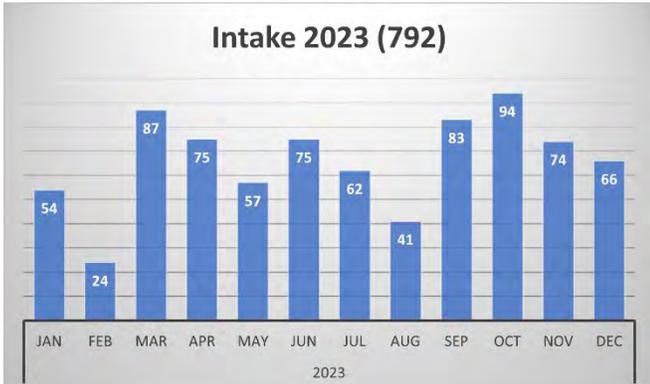

### **Hearing Summaries**

At the last Commission meeting, Commissioner Logue suggested that commission staff should publish revocation hearing summaries. In fact, RCW 43.101.380(7) requires the publication of hearing summaries on an annual basis on a public website. Accordingly, the Certification Division has prepared a report with summaries for all hearings conducted since January 2021, a copy of which is attached. The report has been published on the Certification Hearings page of the Commission's public website. We intend to publish this report on a quarterly basis and will continue to provide it to the Commission as part of the Certification report at Commission meetings.

# CERTIFICATION HEARING SUMMARIES

Washington State Criminal Justice Training Commission

Certification Division  
Q1 2024

## About the Report

This report shows all certification hearing outcomes since SB 5051 was passed in July 2021. The summaries are ordered by the effective date of the final order of the hearing panel. For purposes of this table, all certified peace officers are referred to as "officer" regardless of their rank at their respective agencies at the time of the incidents.

For officers whose conduct predated SB 5051, and for whom charges were issued under the prior version of RCW 43.101.010, the charges are identified by type of disqualifying misconduct. For charges issued under the current version of 43.101.105, the specific statutory provisions charged are provided.

<b>Summary:</b>			
The officer failed to respond to a 911 call for a domestic violence assault involving a suspect with outstanding arrest warrants because he was cooking pizza for his colleagues. In a separate incident, the officer failed to investigate and take enforcement action on a domestic violence vehicle-versus-pedestrian hit and run collision that resulted in serious bodily injury. The agency found that officer was dishonest in the internal affairs investigation. The officer was terminated from employment. The hearing panel dismissed the charge for dishonesty, finding that the WSCJTC failed to meet the burden of proof to sustain the charge, but sustained the other charges.

The officer provided multiple false testimonies, including denying that he had sexual contact with the woman in both 2013 and 2015. A Clallam County Sheriff's Office detective found that the officer committed the crime of Perjury in the First Degree by lying about his previous sexual relationship with the woman and about the events which transpired during and after the citizen motor assist in December 2013. The officer was terminated by his agency.</p>

<p>The officer was arrested for Domestic Violence Assault in the 4th Degree after allegedly bruising his domestic partner's hand and foot with a chair during an argument. The officer denied that the chair touched the victim. After a criminal trial, the officer was found not guilty of four counts of assault. In the agency internal affairs investigation, the officer reiterated that he did not strike the victim with a chair. That investigation found that the officer did strike his girlfriend and that he was dishonest in his answers to investigators regarding the incident. The agency terminated the officer's employment. The hearing panel found there was insufficient evidence to conclude whether the officer committed an assault. Likewise, the hearing panel</p>			

concluded the WSCJTC also failed to prove the officer engaged in two counts of making false or misleading statements. The Statement of Charges was dismissed.

The hearing panel found the officer made false or misleading statements to his supervisor regarding his availability for a scheduled training course and later lied to a different supervisor that the training was canceled. The hearing panel also found that the officer gave a supervisor false or misleading information about a request to switch his shift assignment. The hearing panel dismissed a separate charge against the officer alleging that in another incident, the officer entered false or misleading information into a police dispatch system to disguise the fact that he was riding in a shared vehicle with another officer against his supervisor's orders.</p>

**OPENING**

*De'Sean Quinn, Commission Chair*

**Chair Quinn** called the meeting to order at 10:01 AM

**Tracy Thornburg** conducted a roll call of the Commissioners. A quorum was present.

**Chair Quinn** provided his Chair's report leading with appreciation for the significant participation from the Commission members in their willingness to adjust, make changes, and move forward on projects.

## **EXECUTIVE DIRECTOR'S REPORT**

*Monica Alexander, Executive Director*

**Director Alexander** shared the status of the Basic Law Enforcement Academy (BLEA) and Corrections Officers Academy (COA) wait times. Current BLEA Burien location wait time is approximately six months. The BLEA admission wait times have been slowly decreasing since the opening of the WSCJTC Pasco Regional Academy.

WSCJTC's Vancouver Regional Academy is nearly ready to open. A second class is currently in session at the WSCJTC Pasco Regional Academy. WSCJTC Burien location will continue to run 20 classes. Deputy Director Wills and others have been challenged by the task of finding a location for the Northwest Regional Academy. Legislative budget and the amount requested by various sites to use the space is making the process difficult. **Director Alexander** shared a third BLEA class is being scheduled at the WSCJTC Spokane Regional Academy.

**Director Alexander** provided an update on the Corrections Officers Academy. The current wait time is 22 months. Additional classes are being requested in the Governor's Budget for the upcoming Legislative Session. These would be held regionally in hopes of having two on the east side of the state. **Commissioner Snaza** asked what commissioners can do to assist in the communication of needs during the session, as well as, requesting additional instructors in the regions. **Commissioner Robinson** made an official request for talking points. **Commissioner Logue** brought up staffing concerns due to COA admission delays and their effect on incarcerated people. **Director Alexander** asked **Lacey Ledford**, Legislative Liaison, to send talking points containing information they are welcome to share.

**Director Alexander** provided an update from the Facilities Pre-design Team. The team concluded WSCJTC has outgrown its current footprint. There are not enough dorms, classrooms, and covered training areas causing long wait times for stations during training. **Director Alexander** gave examples of course work that recruits can complete during down time. **Commissioner Lockrem** asked about Pre-Flex. **Director Alexander** explained the micro-learning platform of Pre-Flex. **Chair Quinn** requested **Director Alexander** to give an overview of the legislative funding process for WSCJTC. **Commissioner Logue** asked if there has been a decrease in Burien BLEA wait times with the opening of additional regional academies. **Director Alexander** confirmed a decrease, but not significant. **Director Alexander** also shared that two classrooms have been vacated because the building needs structural repair. Approval for repair costs have been allocated to WSCJTC through emergency declaration funds.

A question on conducting hybrid meetings was posed by a group of Commissioners via submitted request. **Director Alexander** responded that WSCJTC does not have the technology to run hybrid meetings. **Commissioner Logue** suggested a lower-tech option such as Zoom or WebEx to accommodate those who cannot be present in-person. **Commissioner Robinson** shared an example for a hybrid option. **Commissioner Snaza** reminded the Commission on the importance of being accredited in relation to meetings and training. The meetings must allow for the community and commissioners to communicate. **Commissioner Kaholokula** shared a

Zoom court example. **Chair Quinn** asked for barriers to be discussed that would prevent a hybrid meeting in compliance with the Open Public Meetings Act (OPMA) standard requirement. **Commissioner Logue** shared a city virtual meeting example. **Commissioner Reynon** explains the importance of keeping the physical in-person meeting at WSCJTC to also comply with OPMA rules. **Commissioner Johnson** reiterated that the representation of community members' ability to participate is critical. **Commissioner Robinson** summed up presented request. **Commissioner Logue** requested an update on the hybrid option prior to the next meeting in March 2024, as there are concerns of weather impact around that time. **Director Alexander** agreed to provide an update once she had additional information.

**Director Alexander** also shared an update to the WSCJTC Law Enforcement Training and Community Safety Act (LETCSA) curriculum. A course on Native American History has been added. In addition, LETCSA Program Manager, **Alex Buijs**, has developed courses around LGBTQIA+, African American Community, and the History of Race and Policing.

## **CERTIFICATION REPORT**

*Kimberly Bliss, Assistant Director, Certification*  
*Valerie Jenkins-Weaver, Certification Operations Manager*

**Assistant Director Bliss** provided an update on the Certification Report and presented the new data charts format. At the last Commission meeting, a request was made to create a Glossary that defines categories of data included in the Certification Report. A Glossary correction was shared. At the bottom of the page, it should read "quarterly tracking" instead of "monthly tracking". Assistant Director Bliss reviewed the Certification Report statistics.

**Commissioner Robinson** asked about what comprises of the year-to-date data. **Valerie Jenkins-Weaver** replied the cases are from 2020 to current. **Commissioner Johnson** asked a question about the total intake number versus the intake review number and what it represents. **Assistant Director Bliss** referred to the Glossary for defining the terms. **Commissioner Webb** commended Certification for the clear presentation, glossary, and for inclusion of the division-initiated category.

**Commissioner Kendricks** asked how many investigators are on WSCJTC staff and their locations. **Assistant Director Bliss** replied that Certification currently has eight investigators but have nine funded and are in the process of hiring for the final position. Certification will be asking in the next bi-annual legislative budget for additional positions. Seven of the nine investigators are located on the west side of Washington State.

**Commissioner Kaholokula** asked how the division initiated complaints and the pathways to file a complaint. **Assistant Director Bliss** gave examples.

**Commissioner Reynon** suggested breaking down the different categories in what qualifies as an administrative closure. **Valerie Jenkins-Weaver** shared WSCJTC is in the process of purchasing a case management program and that the Administrative Closure policy was just revised, included the breakdowns, but will take some time for approval.

**Commissioner Reynon** also asked for an estimate of the time it takes for a complaint to be processed. **Assistant Director Bliss** replied the timeframe is case specific. Complaints get processed faster than Notices of Misconduct.

**Commissioner Logue** asked for clarification of what denied certification entails. **Assistant Director Bliss** explained WSCJTC can both deny and revoke certification. Denials are for applications and occur when there is something in the applicant's background or they were involved in misconduct prior to certification. Certification is currently working on a policy that will assist the stakeholders on the law enforcement side, letting them know earlier whether certification may be denied. Another policy is being drafted to implement a reporting process when WSCJTC has information or complaints of a recruit during the Basic Training Academy. **Commissioner Logue** asked if there is a place where the public can find summaries on these cases. **Assistant Director Bliss** replied that cases are on the WSCJTC website under Certification and there are plans to make it more user friendly.

**Commissioner Robinson** commented on the great progress that has been made and Certification's ability to adapt to the needs of the Commission and the public. **Commissioner Snaza** asked if Certification can look for trends during the background phase and identifying areas of inequity. Additional trends would analyze when revocation occurred in an officer's career and is there training available that could have assisted. **Assistant Director Bliss** responded that currently there is not staff capacity for a trend analysis but will be added to future audit items.

**Commissioner Dreveskracht** asked about intake and waiting for agency investigations to be completed before submission. **Assistant Director Bliss** explained the intake timeline of waiting for the underlying investigation to be completed and review the investigation summary. It is then determined whether to reach out for the complete files. Based upon that, a decision is made regarding an independent investigation for further review for revocation triage.

**Commissioner Joseph** asked about the timeline from intake to the hearing. **Assistant Director Bliss** responded that it is case specific, but that Certification will try to provide an average length of time. **Commissioner Joseph** asked how the forms processing section works. **Valerie Jenkins-Weaver** explained the various forms that Certification processes that are included in the section. **Commissioner Logue** asked if there are some agencies who are not self-reporting as required by legislation. **Assistant Director Bliss** recommended discussing this issue at a future Commission meeting due to the confusion among agencies regarding the language that the statute requires. A WAC revision may need to occur for clarification, After the clarification, education would follow, and then enforcement would ensue for non-reporting. **Commissioner Logue** requested more information regarding this topic in the future.

The meeting went off the record for break at 11:38 AM and resumed at 11:47 AM.

Dear Ms. Jenkins-Weaver:

The Washington State Patrol (WSP) requests Trooper Samantha Metcalf be recognized by the Washington State Criminal Justice Training Commission (CJTC) as an Explosive Detection Canine Evaluator. The WSP formally recognizes Trooper Metcalf as a WSP Canine Training Unit Training Officer, and it is anticipated she will retain the position for the foreseeable future.

Trooper Metcalf has over 18 years of explosive detection handling experience. In July 2005, Trooper Metcalf successfully completed 400 hours of Explosive Detection Canine Training, including certification. Trooper Metcalf has continually had a CJTC certified Explosive Detection Canine since 2005.

In July 2022, Trooper Metcalf successfully completed the United States Border Patrol Canine Instructor Course, which was over 400 hours of training in El Paso, Texas.

Trooper Metcalf has successfully trained both WSP troopers and officers from other agencies in narcotic and explosive detection. She is responsible for weekly canine maintenance training which includes identifying and resolving any deficiencies with the WSP canine teams. Trooper Metcalf has also been responsible for classroom lecture and practical exercises for initial handler and canine training classes. Trooper Metcalf was the lead instructor for WSP Explosives Detection Canine Class which concluded with the successful certification of four teams in December 2023.

Based on the provided information and the WSP's official endorsement of Trooper Metcalf, I respectfully request she be recognized by the Washington State Criminal Justice Training Commission as a Canine Evaluator. If you have any questions, please call Lieutenant Elizabeth Bigger at 509-750-4560.

TROOPER S. C. METCALF & K-9 MOCHA**

**EXPERIENCE**

I was hired by the Washington State Patrol on January 15, 1998 as a trooper cadet. I attended the 2<sup>nd</sup> Arming Class at the Washington State Patrol Academy from January to March 1998. My cadet field assignment with the Commercial Vehicle Division began in March 1998. I spent 7 months at the truck weigh stations in Cle Elum before being transferred to the Labor and Industries Building in Tumwater. From October 1998 to January 1999 I held a security position until I returned to the academy for the 83<sup>rd</sup> Trooper Basic Training Class.

I successfully completed the academy and a field training assignment and was commissioned on July 1, 1999. My first assignment was patrolling the North Seattle area which includes the downtown Seattle freeway. I transferred to the east side of King County in March 2002 and worked there until May 2005 when I was selected to attend training to become an explosives detection canine handler. I was assigned to the Seattle Vessel and Terminal Security (VATS) Division where I currently work as a K-9 handler.

In May 2005 I was selected as an Explosives Detection Canine Handler for the WSP VATS Division in Seattle. I attended the WSP K-9 Training Program at the WSP Academy in Shelton, Washington. The training was conducted in accordance with Washington Administrative Code (WAC) 139-05-915. The training consisted of 400 hours of classroom and practical applications which covered the requirements for WAC 139-05-915. Both handler and canine are trained as a unit. In March 2012 I returned to Explosives Detection Canine Handler School to retrain with a second canine partner. In March 2020 I returned to Explosives Detection Canine Handler School to retrain with my third and current canine partner, Mocha.

The following topics were included in Explosives Canine Handler School:

- Instincts, Drives and Character Traits
- Modular Training, Concept, Theory and Practice
- Components of a Command
- Proper Maintenance and Use of Training Records
- Reward Systems for Selection Dog Training

- Drives and Character Traits for Detection Dog Training
- Detection Dog Selection Testing
- Proper Use of Training Equipment
- Principles of Daily Grooming, Inspection, and Bonding
- Canine Kenneling Set-Up and Maintenance
- Detection Dog Training Progression
- Detection Dog Training Terminology
- Training Aid Preparation
- Signs and Corrective Measures of Physical and mental Stress
- Detection Dog Handling Basics
- Scent Production and Movement
- Search Patterns
- Passive Indication Training and maintenance
- Principals of Obedience Training
- Pre-Search Rituals
- Purpose Value and Training of Patrol Route
- Canine Team Record Keeping
- L&I Explosives Awareness Training
- ATF Explosives Identification
- Bomb Threat Assessment
- Detection Dog Case Law
- Explosives Spotter Class
- Veterinary K-9 First Aid

During the course of all three of my Explosives Detection Canine Training courses I worked with over 22 canines of various breeds. During my most recent class I worked with 7 canines of various breeds. I was eventually assigned one of the dogs, Mocha, as my primary canine. Mocha is primarily an American Staffordshire Terrier/German Sheppard mix and was 10 months old at the beginning of training. She came from the Everett Animal Shelter. She was screened by WSP K-9 instructors and was selected and purchased for canine detection work. Mocha and I had (number) training applications and (number) training finds during our training as a team.

Mocha is a passive alert dog, which means she gives a “sit” response after locating and pin-pointing on a specific area where the odor of explosives are present. I am trained to look for Mocha’s change in behavior, which she exhibits when an explosive odor is present, prior to and during her sit response. Mocha is trained to detect various explosives and components of explosives to include the following:

Black Powder	Smokeless Powder
TNT	RDX
PETN	Slurries
Water gel	C-4
Ammonia Dynamite	Unigel
TATP	HMTD
Kinepak	Emulsion
Deta Sheet	Detonation Cord
Cast Booster	Pyrodex

Slip Booster  
Comp B

Nitro Dynamite  
Safety Fuse

Mocha and I were accredited on (date) by the Washington State Patrol (WSP) which follows Washington State Criminal Justice Training Center (CJTC) standards. The WSP recertifies teams for on an every 2-year basis. To remain accredited, a team must demonstrate their effectiveness in each area of training an exhibit control, smoothness, and effectiveness in all phases of explosive detection work and obedience.

Accreditation requires certain core learned odors be concealed in each of the following areas: building searches, vehicle searches, parcels/luggage, commercial vehicle/conveyance, and an outdoor open-area search. Each team also completes ongoing regular training with other canine handlers to maintain effectiveness on all trained odors and to address and correct any issues that may arise. WSP standards dictate a minimum of two 4-hour blocks of training per month in addition to daily training finds during screens and searches. Mocha and I regularly exceed this standard. Mocha and I successfully completed team re-certification in March 2022.

In May 2019 I was selected to attend training to become a Detection Canine Instructor at the United States Border Patrol's school in El Paso, Texas. Due to delays from Covid-19 my attendance was delayed. I attended and successfully completed over 440 hours of training and was certified as a Detection Canine Instructor on July 9, 2022. A complete course overview is available upon request.

**Mission Statement**

The mission of the Customs and Border Protection (CBP) Canine Training Program is to develop, train, and certify CBP officer/agent canine handler teams and instructors in the detection and apprehension of undocumented aliens, seizure of controlled substances and other contraband utilized to finance terrorist or criminal drug trafficking organizations. We deliver formal canine training to international, federal, state, and local agencies promoting the United States Government's objectives in anti-terrorism, border security, customs, immigration, and facilitation of legitimate trade and travel. As a resource center, we provide guidance on canine training issues, legal requirements, and certification standards to the Office of Field Operations and the United States Border Patrol.

**Course Delivery:**

The CBP Canine Program has two training delivery sites:

- Canine Center Front Royal (CCFR) located in Front Royal, Virginia and
- Canine Center El Paso (CCEP) located in El Paso, Texas

The training curriculum we deliver is divided into two separate courses which eventually run concurrently:

**I. Detection Canine Instructor Course:**

---

This course is an intense, in depth curriculum which teaches the full spectrum of detection canine training. It is twelve weeks long and divided into two phases.

Most participants in this course have already successfully completed the CBP Detection Canine Handler Course prior to attendance.

**Structure:**

The course encompasses both classroom instruction, and practical hands on field training.

The classroom portion of the course provides the student with comprehensive knowledge of the fundamental training philosophy and methodologies utilized in the CBP Canine Program.

Topics covered include:

- Beginning and advanced canine psychology
- Reward systems for detection canines
- Drives and character traits for detection canines
- Selection testing detection canines
- Canine anatomy and conformation
- Detection canine training methods
- Detection canine training terminology
- Training aid preparation
- Scent production and movement
- Modular and conflict training concept, theory, and practice
- Detection canine handling basics
- Search patterns for detection canine handling
- Proper maintenance and use of training records
- Canine nutrition, first aid, and basic health care
- Diagnosis and problem solving
- Instructor development and communication skills
- National Canine Policy
- Legal issues and canine case law
- Court testimony techniques
- Agency liability protection
- Canine unit administration and recordkeeping
- Storage and maintenance of controlled substances
- Kenneling and vehicle set-up and inspection
- Certification and judging standards
- Multi-discipline and specialty canine classes

Additionally, CBP canine instructors serve as resident experts in canine deployment and administration. In this capacity the instructor is also provided with the knowledge and materials necessary to guide Field Supervisors in the following areas:

- Handler candidate selection
- Equipment selection and procurement
- Veterinary and commercial kennel selection and liaison
- Vehicle and residence kenneling inspection
- Bite incident and canine fatality investigations
- Media and public relations presentations
- Field deployment recommendations
- Other agency liaison
- Canine administration and problem solving

Phase 1:

Weeks one through five constitute Phase 1 of the Detection Canine Instructor Course.

During this time, classroom and field exercises are intermixed. The student will receive the majority of their classroom instruction during the first week of the course. After week one, the majority of the time is spent in hands on training.

Method:

The student is assigned to a group consisting of two CBP canine instructors and between six and ten untrained canines. Under the supervision of the CBP canine instructors, the student will train the assigned canines to recognize and respond correctly to all trained odors (in a variety of search environments) using the techniques and methods taught in the classroom.

Phase 2:

Weeks six through twelve mark the beginning of the Detection Canine Handler Course and Phase 2 of the Detection Canine Instructor Course.

Method:

During this time, the newly trained canines are assigned to the handler students. The instructor students are now responsible for training the new handler students in the proper canine handling techniques and training methodology for their assigned canines. This serves two purposes:

1. It reinforces the training the student instructors have received by allowing them to teach the training.
2. It puts the student instructors in a true instructor capacity thereby preparing them to instruct handlers in the field.

Evaluation:

Throughout the twelve week course, the student instructor is evaluated in two ways:

1. Academics:

In order for a student instructor to successfully complete the Detection Canine Instructor Course, they must score a 90% or above on three academic tests administered during the twelve week course. Students are allowed one retest during the course in the event of the failure on a test. They will be advised of points they failed on, allowed to remediate and take another version of the test the following day. Failure to achieve a 90% or higher on any subsequent tests will result in removal from the course.

2. Field performance:

The student instructor is evaluated daily on the Performance Standard Score Sheet in seventeen different canine handling and/or instructional techniques categories. Failure to achieve a minimum standard of performance in these areas by the end of the rating period will result in removal from the course.

Upon successful completion of the Detection Canine Instructor Course, the student will receive an instructor certification from the CBP Canine Program. This

certification is valid for a period of three years. To maintain this certification, the instructor must attend the CBP instructor recertification course every three years thereafter.

## **II. Detection Canine Handler Course:**

---

This course is designed to create an operationally ready, field deployable canine team.

### Structure:

This course encompasses both classroom instruction, and practical hands on field training. It is seven weeks long.

The classroom portion of the course provides the student with rudimentary knowledge of the philosophy and methodology utilized in the CBP Canine Program.

Topics covered include:

- Canine Psychology
- Reward systems for detection canines
- Drives and character traits for detection canines
- Canine record keeping
- Detection canine training methods
- Canine nutrition, first aid, and basic health care
- Diagnosis and problem solving
- National canine policy
- Legal issues and case law study
- Agency liability protection
- Court testimony techniques
- Certification standards

Method:

The handler student is assigned to a group consisting of two CBP canine instructors, one or more student instructors, and approximately six handler students. Each student has a pre-trained canine assigned to him. The handler student and his canine partner constitute a detection canine team.

Each detection canine team is responsible for safely and thoroughly conducting canine sniffs in a variety of environments. The handler must learn to utilize correct canine handling techniques, and to correctly interpret his canine's behavior in the presence of trained odor, and in its absence.

Timeline:

The first three weeks of the Detection Canine Handler Course are dedicated to classroom instruction. Included in this instruction is practical hands on experience and proctored study time. Upon successfully passing the academic portion of the course, the handlers spend the remaining four weeks in hands on field training. These seven weeks run concurrently with Phase 2 of the Detection Canine Instructor Course.

Evaluation:

Handler students are evaluated in three ways; academically, in field training performance, and during certification.

1. Academics:

In order for a handler student to successfully complete the academic portion of the course, they must pass a comprehensive academic exam with a minimum score of 80 % or higher. In the event of a failure students are advised on points they failed, allowed to remediate and take another version of the test the following day. Failure to achieve an 80% or higher on remedial tests will result in removal from the course.

2. Field Performance:

The handler student is evaluated daily on the Performance Standard Score Sheet in thirteen different canine handling categories. Failure to achieve a minimum average standard of performance in these areas by the end of the rating period will result in removal from the course.

3. Certification:

The CBP National Canine Policy mandates that for a detection canine team to be field deployable, they must hold a current CBP canine team certification. This certification is administered by CBP canine instructors and consists of seventeen searches containing fifteen finds. The certification process takes place over two to three days in a variety of different operational environments. It is a scored event with restrictive parameters which ensure the legal defensibility of a CBP canine team's capabilities, and proficiency in detecting trained odors.

Upon successful completion of these three components, the detection canine team graduates from the course and is certified for a period of one year.

---

Other Certifications:

Additional certifications from other law enforcement canine organizations are encouraged, but not required. For non-CBP canine detection teams who are unable to recertify with a CBP canine instructor, these organization's certifications are an invaluable resource to the legal defensibility of the team's performance.

Maintenance Training:

CBP National Canine Policy also mandates a minimum of sixteen hours of canine maintenance training per month conducted by a certified CBP canine instructor. For detection canine teams from other agencies who cannot meet this requirement, it is recommended that they obtain and maintain certification with an additional law enforcement canine organization such as the National Narcotics

Detector Dog Association (NNDDA) or the North American Police Working Dogs Association (NAPWDA).

### **III. Candidate Selection:**

---

The training courses offered by the CBP Canine program are both mentally and physically challenging. Additionally, the duties of a canine handler or instructor require a high degree of professionalism and physical ability. Because of these factors, great care should be taken in selecting personnel to attend a CBP canine training program. The factors listed below are **recommendations** (not requirements) in choosing a successful candidate:

#### Prior experience:

- Minimum of four to five years law enforcement experience
- Prior experience as a canine handler
- Prior canine training experience
- Experience as a law enforcement instructor or in public speaking
- High proficiency in oral and written communication

#### Attitude:

- Ability to work independent of supervision
- Ability to maintain a calm and professional demeanor under stressful situations
- Flexibility to adapt and respond appropriately to constantly changing situations
- Exhibit confidence, decisiveness, and professionalism in dealing with others and in situations
- Exhibit confidence when dealing with dogs
- Ability to work long and flexible hours including responding to frequent call-outs

Physical ability:

- The candidate should be in excellent physical health and display athletic ability, agility, and coordination
- The candidate should not have fear of heights or enclosed/confined spaces
- The candidate should have no allergies that would impede the execution of his canine duties

**IV. Agency responsibilities:**

---

While CBP offers canine training to outside agencies at no charge, there are costs associated with the training that the attending agency will incur. Although not all inclusive, the list below provides the common costs that an agency may reasonably expect to pay:

Student Costs:

- Travel: Depending on the duty location of the student and the arrangements made, travel costs such as: Airfare, fuel, mileage, tolls, hotel rooms etc. are the responsibility of the employing agency.
- Lodging: Depending on which course is attended, between seven and twelve weeks of lodging costs (not including travel to or from the facility) will be incurred for each student.
- Meals: As with any short term training, meals and other authorized incidental expenses (such as cab fare, tips, laundry, personal care products, etc.) incurred by the student will be the responsibility of the student or their employing agency.
- Medical Care: If the student is injured while attending the training course, instructor staff will facilitate first aid or transportation to a medical facility if warranted. The student will follow the procedures and protocols used for

his or her agency in order to file a claim. The home agency is responsible for all medical bills.

Canine Costs:

- Acquisition: The agency sending the student(s) to training is responsible for acquiring their own canines. A sample list of possible canine vendors is included below.

The outside agency is at liberty to acquire their canines from whatever source they deem suitable. However, prior to entering the CBP training program, each canine will be subject to the CBP selection test to ensure that the canine possesses the requisite drives and character traits to perform the duties of a detection canine. Furthermore, the outside agency will be responsible for all costs (except local pickup) associated with transporting the canine to our training facility. (For further assistance or questions regarding acquisitions please contact CBP Canine Program)

- Kenneling: No cost is associated with housing the canine at our facility during training.
- Maintenance: The canine's food, medication, and veterinary costs during training are the sole responsibility of the outside agency.
- Equipment: Some basic canine equipment (leash, muzzle, brush) will be issued to the handler while at the training facility. The outside agency will be responsible for mission specific canine equipment such as:
  - Traffic leads or long lines
  - First aid kits
  - Collars and/or harness
  - Vehicle equipment
  - Reward objects
  - Training aids

- Specialty equipment

**CANINE KENNELING RELEASE FORM**

The undersigned owner or agent of the canine described on this release form has been advised by the CBP Canine Program that when Police Service Dogs or other canines belonging to the undersigned owners or agents are boarded, they are placed under a great deal of stress because of removal from their normal home environment. This stress can cause latent (dormant) physical conditions such as heart, liver and kidney disorders to become active. In addition, due to the added stimulation of the other dogs in the kennel facility, the chances of injury are increased. This can result in illness or death of the canine described below:

Assistant Director  
Bldg. 11617 Iron Soldiers Way  
Biggs Army Airfield  
El Paso, Texas 79916

Dear Sir,

This letter is a request for training at the U.S. Customs and Border Protection, Office and Training Development, CBP Canine Program. The Washington State Patrol would like to send Trooper Samantha Metcalf to attend the Detection instructor course.

I understand the Washington State Patrol is responsible for the:

- Purchase of the canine.
- Health and vet expenses for the canines.
- Expenses related to lodging (if applicable)
- Expenses related to meals for the student (if applicable)
- Expenses related to student injury (if applicable)

I also understand the canine must be presented for selection testing by CBP Canine Program personnel. The canine must also be at Canine Center Front Royal/Canine Center El Paso for the pre-train phase of the class session.

This letter affirms that Samantha Metcalf is a full time law enforcement officer with The Washington State Patrol and will be on official duty while attending training or utilizing CBP Canine Program facilities.

Sincerely,

(SUPERVISOR name and signature)  
THIS PERSON MUST BE A SUPERIOR

Dear Ms. Jenkins-Weaver:

The Washington State Patrol (WSP) requests Trooper Dominic Ledesma be recognized by the Washington State Criminal Justice Training Commission (CJTC) as an Explosive Detection Canine Evaluator. The WSP formally recognizes Trooper Dominic Ledesma as a WSP Canine Training Unit Training Officer, and it is anticipated he will retain the position for the foreseeable future.

Dear Ms. Jenkins-Weaver:

The Washington State Patrol (WSP) requests Trooper Kevin Fortino be recognized by the Washington State Criminal Justice Training Commission (CJTC) as an Explosive Detection Canine Evaluator. Based on the provided information and the WSP's official endorsement of Trooper Fortino, I respectfully request he be recognized by the Washington State Criminal Justice Training Commission as a Canine Evaluator. If you have any questions, please call Lieutenant Elizabeth Bigger at 509-750-4560.

Valerie Jenkins-Weaver  
Certification Division  
Washington State Criminal Justice Training Commission  
19010 1st Avenue South  
Burien, WA 98148

Dear Ms. Jenkins-Weaver:

The Washington State Patrol (WSP) requests Trooper Joshua McKorkle be recognized by the Washington State Criminal Justice Training Commission (CJTC) as a Master Training Officer for the purpose of certifying law enforcement canines as an evaluator. The WSP formally recognizes Trooper McKorkle as a WSP Canine Training Unit Training Officer, and it is anticipated he will retain the position for the foreseeable future.

In November 2004, Trooper McKorkle successfully completed 400 hours of Explosive Detection Canine Training, including certification by the Washington State Police Canine Association (WSPCA) as instructed by CJTC Evaluator Trooper James Riley (WSP). Trooper McKorkle has continually had a CJTC or Transportation Security Administration (TSA) certified Explosive Detection Canine since 2004.

In December 2017, Trooper McKorkle successfully completed the United States Border Patrol (USBP) Canine Instructor Course, which was over 400 hours of training in Front Royal, Virginia. In August 2020, Trooper McKorkle successfully completed the 40-hour USBP Canine Instructor Recertification Course in El Paso, Texas, which is required every 3 years to maintain instructor certification. Due to COVID restrictions, Trooper McKorkle's certification was extended one year. It expires in August 2024.

Trooper McKorkle has successfully trained both WSP troopers and officers from other agencies in narcotic and explosive detection. Trooper McKorkle is responsible for monthly maintenance training of department teams, identifying and resolving deficiencies. He has been the lead trainer for 10 explosive detection canine teams, and the assistant trainer for 28 explosive and narcotic detection canine teams that have all successfully completed CJTC certifications.

Based on the provided information and the WSP's official endorsement of Trooper McKorkle, I respectfully request he be recognized by the Washington State Criminal Justice Training Commission as a Master Training Officer. If you have any questions, please call Lieutenant Elizabeth Bigger at 509-750-4560.

Sincerely,

# INTEROFFICE COMMUNICATION

## WASHINGTON STATE CRIMINAL JUSTICE TRAINING COMMISSION

**TO:** Commissioners  
**FROM:** Certification Division  
**SUBJECT:** Variance Request – Skamania County Sheriff’s Office / Paul Uminski  
**DATE:** 2/16/2024

Greetings Commissioners:

Skamania County Sheriff Summer Scheyer has submitted a request for a training variance to the Executive Director for Mr. Paul Uminski on February 1, 2024. Pursuant to WAC 139-03-030(3), the variance request must be presented to the Commission for full consideration at its next meeting.

Mr. Uminski’s certification expired on June 7, 2023. Under these circumstances, Mr. Uminski would be required to attend the basic law enforcement academy (BLEA). *See* WAC 139-06-010(d). Sheriff Scheyer requests that Mr. Uminski be granted a variance to instead attend the basic law enforcement equivalency academy (BLEEA).

Sheriff Scheyer’s request is attached to this memorandum, and she intends to be present at the Commission meeting to answer any questions.

Commission staff reviewed Mr. Uminski’s commission records and his relevant training and certification records are attached. A review of Mr. Uminski’s WSCJTC record revealed the following:

- Hired by the Clark County Sheriff’s Office as a custody officer, November 30, 2010 – January 22, 2013.
- Rehired by the Clark County Sheriff’s Office as a peace officer, June 20, 2013 – September 6, 2016.
  - BLEA completed and certified on 6/20/2013.
  - Resigned in lieu of termination on September 6, 2016.
  - WSCJTC opened a certification case related to the separation and declined to take revocation action on June 5, 2017. The declination was based on WSCJTC not meeting the burden of proof for the revocation law in place in 2016. The investigative files were destroyed based on the retention laws at the time, and WSCJTC cannot find any other records related to the alleged misconduct.
- Woodland Police Department February 26, 2018 – June 7, 2018. Mr. Uminski resigned his position; no misconduct was reported.
- Certification expired on June 7, 2023.
- Skamania County Sheriff’s Office February 16, 2024 – current.

Since Mr. Uminski’s break in service from Woodland Police Department, Mr. Uminski has not been employed in the law enforcement field and has engaged in any law enforcement training. Mr. Uminski has been the owner/operator of a cargo freight and transportation company since October 2018.

Executive Director Alexander:

I am writing you to request an exemption from the 60-month break in service restriction for the Basic Law Enforcement Equivalency Academy. Paul Uminski was a certified peace officer in the State of Washington for over three years. Mr. Uminski's last date of service was 06/07/2018, putting him approximately seven months over this restriction. Mr. Uminski's peace officer certification expired in good standing. Mr. Uminski has been hired by the Skamania County Sheriff's Office with an official hire date of 02/16/2024.

For our small agency suffering from a drastic and severe staffing shortage, allowing Mr. Uminski to attend the shortened equivalency academy would assist us in acquiring much-needed staffing at an accelerated pace. Mr. Uminski would still be required to successfully complete our 4-month Field Training Officer program. It would also mitigate excessive academy enrollment numbers, providing much needed slots for other agencies requiring the full-term academy.

I appreciate your consideration in this matter and would do anything required of me to facilitate this exemption. I have read this statement and that, to the best of my knowledge, information, and belief the contents thereof are true.

Sincerely,

Summer N. Scheyer  
Sheriff

Sheriff Chuck Atkins  
Clark County Sheriff's Office  
PO Box 410  
Vancouver, WA 98666

RE: Paul Uminski – CJTC Case 16-635

Dear Sheriff Atkins,

Last November I received the Notice of Separation form for Paul Uminski, a former peace officer with your agency. On that form, you indicated Mr. Uminski involuntarily resigned and he could have engaged in conduct that may constitute “disqualifying misconduct” pursuant to RCW 43.101.105(d).

There are limited circumstances under which the Commission may revoke a peace officer certification, one of them being discharged for disqualifying misconduct as defined by RCW 43.101.010 (8) or (9). To revoke Mr. Uminski’s peace officer certification, the Commission must prove separation for disqualifying misconduct by clear, cogent and convincing evidence. After reviewing the provided five separate internal investigation cases which mostly resulted in written reprimands as well as training/work plans, I was unable to identify evidence to meet this burden of proof. Therefore, I am declining to initiate action to revoke Mr. Uminski’s Washington State peace officer certification.

If you disagree with this decision and would like to have it reviewed, WAC 139-06-040(2) allows the opportunity for review of this decision by the Chair of the Commission. Such a request for review must be made in writing within fourteen days of the mailing of this notification. The written request for review must be accompanied by a copy of this notice and mailed to:

Chief Jeff Myers, Commission Chair  
Hoquiam Police Department  
215 10th Street  
Hoquiam, WA 98550

If a request for review is not received within fourteen days, the WSCJTC will destroy its copy of the investigative files as required by RCW 43.101.400 (4).

Sincerely,

Tisha Jones, Manager  
Peace Officer Certification

# INTEROFFICE COMMUNICATION

## WASHINGTON STATE CRIMINAL JUSTICE TRAINING COMMISSION

**TO:** WSCJTC Commissioners  
**FROM:** Kayla Wold, Hearings Coordinator  
**SUBJECT:** WAC 139-03-070 and 139-06-070  
**DATE:** February 29, 2024

Under RCW 43.101.155, if the Washington State Criminal Justice Training Commission (WSCJTC) determines, upon investigation, that there is probable cause to believe that an officer's certification should be denied, suspended, or revoked, the WSCJTC will prepare and serve the officer with a statement of charges. If the officer requests a hearing, they have the opportunity to defend against the WSCJTC's action. The WSCJTC holds the burden of proof in actions before the hearings panel to deny, revoke or suspend an officer's certification.

The burden of proof often differs between criminal, civil and administrative actions, and various parties have expressed some confusion in prior hearings regarding the applicable burden of proof. The proposed changes to WAC 139-03-070 and 139-06-070 will make it clear to all parties involved in the administrative hearing process that: 1) the WSCJTC bears the burden of proof by a preponderance of the evidence in the initial hearing; and 2) that the appealing party bears the burden of proof in any appeal of the Commission's final administrative decision/order.

These WACs were initially scheduled to be heard during the last Commission meeting, but a public stakeholder proposed several substantive edits. Accordingly, WSCJTC staff removed the WACs from the agenda and met with the stakeholder to resolve their concerns.

### **Amended WAC Language:**

**WAC 139-03-070 Burden and Standard of Proof:** Added language to clarify who holds the burden when appealing the Commission's final administrative decision. The following was added to the WAC: "(1) The standard of proof on all factual issues is preponderance of the evidence. (2) The burden of proof for the final administrative decision of the commission rests with the commission. (3) In any action to appeal the commission's final administrative decision, the appealing party shall bear the burden of proof. (4) The burden of proof in certification matters is governed by WAC 136-06-070 (13)."

**WAC 139-06-070 Conference and Hearing Procedures:** Minor language changes to remove the passive voice, provide consistency and add clarity and transparency. Added the following: "(13) to clarify that the WSCJTC holds the burden of proof in actions before the hearings panel to deny, revoke or suspend an officer's certification. (14) to clarify that the appellant party bears the burden of proof when appealing the final decision."

## INTEROFFICE COMMUNICATION

# WASHINGTON STATE CRIMINAL JUSTICE TRAINING COMMISSION

**TO:** WSCJTC Commissioners  
**FROM:** Kayla Wold, Hearings Coordinator  
**SUBJECT:** WAC 139-05-300  
**DATE:** February 29, 2024

Under WAC 139-05-300, every certified peace officer and reserve officer is required to complete a minimum of 24 hours of in-service training annually. Due to certification definition updates, the definition of certified officer was updated to include corrections officers and certified limited authority peace officers.

*Certified officer, unless otherwise specified, means any full-time, general authority peace officer, certified limited authority peace officer, certified tribal police officer, and corrections officer as defined in RCW 43.101.010 (6), (10), and (12).*

Throughout this WAC, certified officer has been added to encompass all certified officers that are mandated to complete 24 hours of in-service training annually. Corrections officers and certified limited authority peace officers will be included in the 2026 audit. This will allow time for agencies to prepare for training budgets, staffing and in-service training scheduling.

**WAC 139-05-300 Requirement for in-service training.** The commission recognizes that continuing education and training is the cornerstone for a successful career as a ~~((peace))~~ certified officer (WAC 139-01-310) in providing competent public safety services to the communities of Washington state.

(1) Every ~~((peace or tribal))~~ certified officer (~~((certified))~~) under RCW 43.101.095 or 43.101.157 will complete a minimum of 24 hours of in-service training annually.

(a) The in-service training requirement for each newly hired officer must begin on January 1st of the calendar year following their certification as a result of successful completion of the basic law enforcement academy, equivalency academy, or approved waiver as provided by WAC 139-03-030.

(b) The in-service training requirement for certified limited authority peace officers and corrections officers will begin on January 1, 2026.

(c) Training may be developed and provided by the employer or other training resources.

~~((e))~~ (d) The commission will publish guidelines for approved in-service training.

~~((d))~~ (e) The 24 hours must include the successful completion of the commission's annual online crisis intervention course prescribed under RCW 43.101.427.

(2) Every reserve peace officer as defined by WAC 139-05-810 will complete a minimum of 24 hours of in-service training annually.

(a) The in-service training requirement for each newly appointed reserve peace officer must begin on January 1st of the calendar year following their appointment as a result of successful completion of the basic law enforcement academy, basic reserve academy equivalency process, or approved waiver as provided by WAC 139-03-030.

(b) Training may be developed and provided by the employer or other training resources.

(c) The commission will publish guidelines for approved in-service training.

(d) As of July 1, 2018, the 24 hours must include the successful completion of the commission's annual online crisis intervention course prescribed under RCW 43.101.427.

(3) All records for training required for this rule must be maintained by the employing agency and be available for review upon request by an authorized commission representative.

(a) The commission will maintain records of successfully completed commission-registered courses.

(b) Upon request, the commission will furnish a recordkeeping template for use by agencies to track training.

(4) The sheriff or chief of an agency may request an extension of three months for officers in their employ by notification in writing to the commission, identifying those specific officers.

(a) A sheriff or chief may request a three-month personal extension of the requirement by doing so in writing to the commission.

(b) Written requests submitted under the provision of this subsection must be received by December 1st of the calendar year in question.

(c) The three-month extension under this provision provides the individuals named until March 31st to complete the mandated 24 hours.

(d) Any training obtained during this three-month extension only counts towards the previous year being audited.

(5) The commission executive director or designee may, on a case-by-case basis, grant exceptions for individuals with extenuating circumstances where the employing agency has made every reasonable effort to obtain training for the officer.

Dear Kayla Wold,

I am writing this letter to inform you of my interest in the current Criminal justice training commission panel member position that you have available at the Washington Criminal Justice Training Commission. I am currently an Assistant Professor for Centralia College and a part-time lecturer for the University of Washington in the Criminal Justice Department. I have a good grasp on subject material as it relates to our criminal justice system. I have experience teaching Intro to Criminal Justice, Corrections, Policing, Community Policing, Criminal Justice Ethics, Criminal Behavior, Human Trafficking, Corrections, Children with Incarcerated Parents, Victimology, Criminology and Juvenile Justice. As a lecturer I have designed all course syllabuses, selected course textbooks, created lectures, and test materials.

In addition to my teaching and criminal justice experience, I held a Research Associate position with the Arkansas Department of Corrections. In this position, I assisted the Quality improvement and program evaluation administrator with internal research projects that aligned with Arkansas's department of corrections initiatives to improve process programs and public safety outcomes. I assisted in establishing and collecting data, methodology, research questions, analysis plans, and data resources. Additionally, I provided technical advice and consultation on stakeholders, legislature, and academic partners research efforts.

I believe I will excel in this position because I have a Ph.D in Criminology which has provided me with extensive knowledge, research and expertise as it relates to our criminal justice system, policing and ethical issues within these fields. I believe that I would provide a unique insight as a panel member and would be honored to be a part of this organization.

I thank you and look forward to hearing from you.

Thank you,

Tionna S Miller, Ph.D.-C, MSW.

Dear Kayla Wold

This is a letter of support for Dr. Tionna S. Miller in her application as member of the commission's hearings panel.

Dr. Miller is tenure-track Criminal Justice instructor in the Arts & Sciences Division at Centralia College. She has been entrusted with the responsibility of updating our Criminal Justice program to be more responsive to the needs of state law enforcement and corrections agencies as well as our diversifying community. In my work with her over the last 15 months, I have seen her dig into the position and stretch beyond the classroom to reach out to the community, making contacts with local law enforcement, social welfare, and corrections agencies in order to better understand their needs and perspectives. Last year, for example, she served on the Centralia Police Department's Sergeant Assessment Panel.

I think her educational and employment background would make her an excellent member of the WSCJTC's hearing panel. Her graduate work in criminal justice and social work means that she has a deep understanding of many of the issues germane to questions about officer certification. Likewise, her experience as a supervisor in the insurance industry and then, later, interning in social service and clinical therapy, as well as with the Pierce County Sheriff's Department, ensures that she can bring a breadth of practical knowledge to her work on the panel.

Even above those qualifications, I know from working with her that she brings an objective, critical mind to all her work: What do the facts say? And, as a highly trained scholar and college instructor, she is also very familiar with the process of assessing the facts, judging them, and coming to fair, well-supported, ethical decisions.

In closing, I want to add that, if Dr. Miller is selected to serve on the panel, I will work with her to ensure that she has the flexibility needed to be an active and effective member. I see a direct link between the work she does on our campus and her potential service on the hearings panel.

If you have any questions, please don't hesitate to contact me.
